**REGIONAL OFFICE**  
220 SOUTH Jefferson  
St. Louis, MO 63103  
Phone: 314-877-2850

**SERVICES OFFERED:** SHCN provides services for children and adults with disabilities, chronic illnesses, and birth defects. SHCN is supported by state and federal funding. The services available from SHCN depend on the condition or illness of the individual.

**Diagnostic Services** include outpatient tests and evaluations and up to five days of inpatient diagnostic evaluation for some services.

**Treatment Services** include inpatient care, surgery, therapy, physician office visits, prescription medication, durable medical equipment and service coordination. **Adult**

**Head Injury Rehabilitation Services** include cognitive/behavioral, adjustment counseling, community integration and educational/vocational training. **Service Coordination** is a team process that helps an individual/family to review their needs and resources to develop a plan with outcomes to address those needs.

Service coordination helps people to navigate the system and assures that services are timely, monitored, and regularly evaluated so that outcomes are met. It is important that each person served is encouraged to develop the skills needed to improve their level of independence. Service coordinators will continue to monitor and evaluate services as long as individuals remain enrolled in SHCN. To be eligible for SHCN services, you must:

- Be a Missouri resident
- Have a special health care need
- Meet medical and financial eligibility when required.

Both medical and financial eligibility vary between service, age or condition. Financial eligibility is based on U.S. poverty guidelines. Insurance is not a factor in determining eligibility. There are no financial eligibility requirements for service coordination.

To apply for services, contact SHCN for an enrollment form, or download from our Website at [www.dhss.mo.gov/SHCN](http://www.dhss.mo.gov/SHCN). Contact SHCN if you need assistance at 1-800-451-0669. There is no fee for applying for services.

SERVICES OFFERED: Developed by the Division of ADA and funded by Missouri's Medicaid program and ADA's purchase-of-service system, the Comprehensive Substance Treatment and Rehabilitation (CSTAR) Program provides a full continuum of care approach to substance abuse treatment. CSTAR offers a flexible combination of clinical and supportive services, to include temporary living arrangements when appropriate, that vary in duration and intensity depending on the needs of the consumer. To better address the specific needs of those seeking treatment, four specialized CSTAR programs were developed:

CSTAR Women and Children: Substance abuse affects women in unique ways, both physically and psychologically. These programs are designed for women and their children. Priority is offered to women who are pregnant, postpartum, or have children in their physical care and custody. Depending on assessed needs, additional services may include daycare, housing support and community support for children that accompany their mother into treatment.

CSTAR Adolescent: Early intervention, comprehensive treatment, academic education, and multiple levels of care are important in averting chronic substance abuse and resulting problems that might otherwise follow a young person for a lifetime. Designed for children 12 to 17 years in age, these programs offer the full spectrum of treatment services to Missouri's youth.

CSTAR General Population: These programs offer intensive outpatient treatment services to both men and women with substance abuse

problems. The full menu of treatment services is available.

**CSTAR Opioid:** These medication-assisted treatment programs are designed for medically supervised withdrawal from heroin and other opiate drugs, followed by ongoing treatment and rehabilitation for addiction and related life problems. Priority admission is given to women who are pregnant and persons who are HIV positive. Missouri's opioid treatment programs meet required federal guidelines.

### **SERVICES OFFERED: Early Intervention Services (Birth to Age Three):**

Professional staff of certified educators, therapists and specialists provides a range of highly specialized services to children with diagnosed visual impairments, including those with additional disabilities. Services vary according to need and are designed to encourage each child's optimal development. Services can be provided in the home or elsewhere if the child is attending a day care center or other program in the community. The frequency and length of the visits are determined according to the needs of the child and the family.

### **Family Support Services (Available to Families of Children of All Ages):**

The Delta Gamma Center supports children with visual impairments, and perhaps other disabilities, by supporting their families. Family members can choose from among the support services offered or can request specific services to address their unique concerns. The staff works to strengthen families by assisting them in learning about their child, their child's unique strengths and needs, the resources available in the community to help them meet those needs and the skills and information necessary to access them.

### **Buddy Builder Classes (Birth to age 3):**

Parent child classes, called Buddy Builders, offer a unique opportunity for parents to connect with, and learn from each other. Classes are held three times each month at the Center for children birth - 3 and their families. Twice a month, families participate in sensory play activities to focus on development in all areas as well as social interaction with other children. The third class is an "out and about" experience where children and their parents can explore community activities that are adapted to be meaningful for them. Monthly outings in the community encourage families to venture out in a safe group, with adaptations. Buddy Builders classes are a natural way to learn parenting skills while addressing the

unique learning needs of these children. Classes provide opportunities to experiment with different lighting, to adapt toys under staff guidance, and to establish connections with other families who can share common concerns and resolutions. A music therapist provides fun and engaging ways to teach new concepts and movement and teachers plan activities for parents and children together. A classroom snack provides a fun atmosphere for addressing feeding and self-care skills. Time to meet with a social worker is available after each class.

- Individual and Systems Advocacy
- Information and Referral
- Peer Consultation
- Transition

### **ACCESS HOUSING**

Access Housing Jefferson County is a Missouri nonprofit organization which seeks to provide affordable housing, with a focus on accessibility for seniors and individuals with disabilities.

DRA is proud to be a part of multiple senior apartment complexes in Arnold and Festus serving seniors age 55 and above. 20% of the units are dedicated to special needs tenants and services are available to all residents, including in home help, transportation, and much more.

DRA obtains and rehabilitates and or retrofits single family homes to Universal Design standards prior to offering them for sale to low / moderate income individuals. The number and availability of these homes is dependent on outside funding sources.

Site: <https://dra4help.org/what-we-do/additional-services/housing-assistance/>

### **CONSUMER DIRECTED SERVICES**

The Consumer Directed Services (CDS) program can provide assistance to individuals with physical disabilities who are 18 years of age or older. Hiring an individual(s) to perform routine tasks of daily living and other tasks the individual(s) is unable to perform alone, allows this person to live independently. Daily living activities can include dressing, undressing, bathing, grooming, housekeeping, meal preparation, shopping, transportation, etc. The CDS program is a program that allows the individual(s) to direct his or her own care which means the individual(s) choose, recruit, hire, train, and manage their own attendant. The individual is the employer not Disability Resource Association.

Requirements of CDS:

Must be 18 years of age or older

Must have a physical disability

Must have Medicaid

Attendant can be a relative but cannot hire a spouse.

### **EQUINE-ASSISTED THERAPY**

Equine-assisted therapy riding is a treatment alternative to traditional clinical settings. Consumers can be influenced by a horse rather than by physical therapy machinery. The different environment and the warmth and rhythmic movement of a horse can be used to achieve therapeutic goals.

Consumers of all ages with a wide range of disabilities can benefit. The types of disabilities that can be served include: amputations, autism, brain injuries, cardiovascular accident/stroke, cerebral palsy, down syndrome, emotional disabilities, hearing/vision impairments, learning

disabilities, mental retardation, multiple sclerosis, post- polio, spinal bifida and spinal cord injuries.

The horse's gait produces a motion similar to human ambulation. That motion can strengthen and support the spine and pelvis. It can also stimulate endorphins in the brain that can ultimately reduce the sensation of pain.

Riding can boost self-confidence, trust and pride as a result of mastering new skills. Riders with physical disabilities can show improvements in flexibility, balance and muscle strength. Riders with mental disabilities can increase confidence, patience and self-esteem. Our participants come into the program determined not to let their disabilities define them. Instead, they embrace their new experiences and utilize their accomplishments in other areas of their daily lives.

### **IN HOME SUPPORT SERVICES**

◆ Homemaker services consist of general household activities provided by a trained homemaker when the individual regularly responsible for these activities is temporarily absent or unable to manage the home care for himself/herself.

◆ Optional homemaker chore services provide assistance with intermittent household tasks necessary to the maintenance of a safe and habitable home environment.

◆ Basic personal care are medically oriented tasks, which are prescribed by a physician to meet a client's physical needs and thereby enable the client to remain in his or her home and be treated on an outpatient basis rather than in a hospital or nursing facility.

◆ Advanced personal care are maintenance services provided to a recipient in the individual's home to assist with activities of daily living when this assistance requires devices and procedures related to altered body functions.

◆ Authorized nurse visits are skilled nursing services of a maintenance or preventive nature provided to clients with stable chronic conditions

◆ Respite care are maintenance and supervisory services provided to a client in the individual's home to provide temporary relief to the caregiver that normally provides the care.

◆ Advanced Respite care are maintenance and supervisory services provided to a client with non-skilled needs that require specialized training.

◆ Nurse Respite care are maintenance and supervisory services provided to a client with special skilled needs.

### **JEFFERSON COUNTY HEALTH AND EDUCATION COMMITTEE**

DRA organizes and sponsors the Health and Back to School Fair for all low to moderate income families in Jefferson County. Attendees receive school supplies, health and hygiene services and much more. Due to the large numbers of participants, families **must** sign up in advance. To avoid waiting in line, attendees should arrive early as the crowd is very large. Individuals physically unable to waiting in line should call DRA to make arrangements in advance.

### **JEFFERSON COUNTY HUNGER TASK FORCE**

Jefferson County Hunger Task Force (JCHTF) was established due to the great economic needs of families in Jefferson County. Our food pantries have had a large increase in families who need food and personal care items. Many of the food pantries are unable to keep up with the high demands. The Jefferson County Hunger Task Force works with many community organization and companies to improve the conditions facing families in Jefferson County.

Site:

<https://dra4help.org/home/partners/jefferson-county-hunger-task-force/>

### **TRANSPORTATION PROGRAMS**

DRA offers several options which can hopefully meet your transportation needs.

#### **Essential Medical Transportation needs:**

We offer transportation to medical appointments such as, Transportation to Dialysis treatment, X-Ray, Minor Outpatient surgery, or even a doctor's appointment. This program features door-to-door services.

#### **Workforce Transportation:**

- Available for Individuals with Disabilities and Persons of Low Income
- Available for Employment/Interviews/ Education/Training
- Currently transporting from Arnold, Barnhart, Crystal City, Festus, Herculaneum and Imperial. Transporting within Jefferson County and as far as I-55 and Lindbergh.
- \$3 for a one way trip, \$5 round trip and a \$1 additional charge for St. Louis County Trips.

### **ADDITIONAL SERVICES:**

#### **ASSISTIVE TELEPHONE TECHNOLOGY**

Assistive telephone equipment is made available to individuals with disability related needs. This equipment includes voice activated, touch activated, large number keypad, amplified and TTY equipment for those with hearing loss.

#### **DISABILITY HOME OWNERSHIP ADVOCATES**

This emerging program is modeled after more widely recognized Home of Your Own programs. The program is currently seeking individuals with disabilities who are interested in home ownership. Qualifications include good credit and total house hold income of at least \$1200.00 a month.

## **EQUIPMENT LOAN SERVICES**

This program offers long and short-term equipment—a variety medical and therapeutic items including electric wheelchairs, home modification materials and other disability related items.

## **HEALTH SERVICE SUPPORT**

This service provides information regarding Medicaid, Medicare and supplement insurance. DRA also explains in detail all programs involving public health.

## **INDIVIDUALIZED/EDUCATIONAL ADVOCACY SERVICES**

These services are provided in both group and individualized formats. These services consist of IEP and Transition planning for both parents and students. The organization provides direct advocacy assistance utilizing Independent Living Specialists and a variety of trained advocates. Designated advocacy personnel will accompany parents and students to IEP and other related meetings upon request.

## **LOW VISION TECHNOLOGY**

Low vision services are provided utilizing equipment and programs materials provided by Rehabilitation Services for the Blind. DRA is equipped with a complete Low Vision center featuring a variety of magnifying, lighting devices and close circuit television equipment. Individuals are given direction as to what adaptive equipment may be useful in their situation and can actually use the available items. Once an individual determines that a piece of equipment meets their immediate needs, that item is loaned to them. After equipment is loaned, a representative from Rehabilitation Services for the Blind will visit them in person to provide permanent equipment for daily use. All equipment loaned by DRA is returned after the individual receives further services from Rehabilitation Services for the Blind. This process maintains the equipment supply of the Low Vision center.

## **RAMP BUILDING AND HOME MODIFICATION**

This program utilizes funds from private corporations, corporate and community funders to build ramps or make various adaptive home modifications for consumers.

Depending on the availability of funds, DRA makes necessary home repairs for low-income individuals. These repairs are limited to safety and structural repairs. **No cosmetic repairs will be considered.**

## **SOCIAL GROUP**

The Social Group is comprised of individuals 18 years or older. The group plans and participates in various monthly activities throughout the year. Activities range from Cardinals games to boating and swimming. Contact DRA to receive additional information. Social Group meets throughout the year. Contact us to get involved.

#### PROGRAMS OFFERED:

**Bridge to the Future:** The Bridge program serves as a "Bridge" between hospital and long term community services for medically fragile infants. Services are based on individual family strengths, and are designed by the family and the nurse.

**Bright Futures:** The Bright Futures program is a complete perinatal outreach program that focuses on pregnant women who are receiving no prenatal care. Goals of the program include helping women to access prenatal care, have a healthy pregnancy and after the baby's birth,

teaching infant care and building parenting skills.

**Safe Beginnings:** This program serves MRDD (mentally retarded / developmentally disabled), mentally ill and physically challenged pregnant or new mothers. Goals include reducing premature birth, preventing child abuse and neglect, and promoting good parenting skills. The intensity of the program is dependent upon the individual needs of the family. The Safe Beginnings program continues until the participant enters a long term care program.

**Teen Parent:** This program serves first time mothers under age 19. It is an eighteen month program. The goals of the Teen Parent program include reducing repeat pregnancies, ensuring infants receive all immunizations, and reducing accidents by educating young mothers on what safety hazards are to the infant at each stage of development. The program also focuses on increasing young mothers' awareness of the signs of physical illness in the infant and making her aware of the health resources in her community.

SERVICES OFFERED: The [Alvin J. Siteman Cancer Center](#) at Barnes-Jewish Hospital and [Washington University School of Medicine](#) is an international leader in cancer treatment, research, prevention, education and community outreach. It is the only cancer center in Missouri and within a 240-mile radius of St. Louis to hold the prestigious Comprehensive Cancer Center designation from the National Cancer Institute

and membership in the National Comprehensive Cancer Network. Siteman offers the expertise of more than 350 Washington University research scientists and physicians who provide care for more than 8,000 newly diagnosed cancer patients each year. A full range of advanced diagnostic and treatment services are available for patients with all types of cancer, many of them provided in the Center for Advanced Medicine, a state-of-the-art outpatient facility that opened on the Barnes-Jewish Hospital campus in 2001.

Siteman also offers patients access to support services throughout their care. Satellite facilities are conveniently located near the campus of Barnes-Jewish West County Hospital in Creve Coeur, at Barnes-Jewish St. Peters Hospital in St. Charles County, and in South St. Louis County.

SERVICES OFFERED: University Extension is the joint statewide educational outreach effort of the five campuses of the University System and Lincoln University in Jefferson City. University Extension faculty brings the resources of the University System to Jefferson County through

education programming and projects in an effort to meet the needs and aspirations of the citizens. Specialists are available by referral through Missouri Extension. Serves residents of Jefferson County. Offers 4-H youth programs which helps young people prepare to be future leaders.

### **Soil Testing and Plant Diagnostic Services**

Crop producers, commercial horticultural growers and home gardeners can receive diagnoses for plant diseases or pest infestations, and have soil analyzed. Soil testing provides analysis of pH, phosphorus, potassium, calcium, magnesium, organic matter percent, neutralizable acidity, cation exchange capacity and effective neutralizing material (EMN). Customers will receive recommendations for nitrogen, phosphorus, potassium and liming (or acidifying). Tests for nitrate, boron, zinc, sulfur, iron, manganese and copper also are available at additional cost. Regional specialists also can assist you with additional information and recommendations.

- [Plant Diagnostic Clinic](#) The MU Plant Diagnostic Clinic identifies insects, diseases and weeds, and provides management solutions for these problems.
- [Plant & Nematode Screening Services](#) This laboratory examines soil and plant samples qualitatively and quantitatively for the presence of plant parasitic nematodes. Recommendations are provided for management strategies to reduce the effect of nematodes on plant growth and yield.
- [Soil and Plant Testing Laboratory](#) The MU Soil and Plant Testing Laboratory provides fertilizer recommendations based on soil or plant analysis to farmers, home owners, vegetable and fruit growers, golf course superintendents, and lawn and landscape specialists.

### **Family Nutrition Education Program**

The [Family Nutrition Education Program](#) helps limited-resource families and individuals improve their health and fitness. Education focuses on teaching healthier eating habits, understanding of food safety and better

management of food dollars. FNEP is available to individuals, groups and school at no cost. Contact us for more information on FNEP.

### **MU Direct: Continuing and Distance Education**

[MU Direct: Continuing and Distance Education](#) offers online degrees in education, journalism and several health-care fields, including nursing, management, informatics and respiratory therapy. These are available to students across Missouri and beyond. Mid-Missourians can pursue a bachelor of general studies or master of public administration by attending MU In The Evening classes.

### **Canner Gauge Tests**

Bring your dial-type pressure canner lid to extension center for testing and examination. Dial-type gauges should be tested annually to ensure accuracy and prevent bacterial contamination of preserved foods. (Testing is not necessary for weighted gauges.) Testing is offered for a nominal fee.
